

30W UHF Mobile Duplexer

Model: 6MC450-30 400 -520MHz 30Watts

Compact duplexer 6MC450-30 is meant to provide frequency isolation between transmitting and receiving channels. Combining small geometry with low loss and close frequency spacing with selective pass characteristics this duplexer is ideal for use in systems with low-to-medium power repeaters where small physical dimensions of equipment are critical.

Features

- Compacted 6 high quality aluminium cavity
- Designed to meet environmental requirements of MIL-DTL-3933.
- Low loss and high isolation.
